⚠ Caution: External sender

Dear Shishira,

I am pleased to inform you that your proposal (Reference: SHEF-YR8-093_SREAS24/003) to carry out a work package using the Royce Equipment Access Scheme has been approved. The cost of the work will be covered directly by the Henry Royce Institute for advanced materials.

Attached is the completed application form & the quotation of services along with our terms and conditions, which will be non-negotiable. Can you please check and sign the quotation of services document and return it to royce@sheffield.ac.uk?

Once the work is complete, can you also complete the short report and evaluation form attached. This will help us capture the outcome in terms of its contribution to your research. It will also help us to improve the scheme's operation. You should aim to return this to royce@sheffield.ac.uk **within 2 weeks** of the access being completed.

Acknowledgements
Please remember to acknowledge support of the Institute in any publications (e.g. "We wish to acknowledge the support of the Henry Royce Institute for advanced materials for (**SB**) through the Researcher Equipment Access Scheme enabling access to **Aconity3D AconityMINI** facilities at **The Royce Discovery Centre at the University of Sheffield**; EPSRC Grant Number EP/R00661X/1 & EP/P02470X/1)".

Publicity
We may ask to use your experience as the basis for a case study to illustrate the impact of the Scheme for our funders. This may involve photography or (possibly) a video interview. Please advise me if you do not wish images or video footage of yourself to be used for this purpose.

Once you have signed and returned the quotation for services, please liaise directly with George Maddison and Robert Snell to schedule the work

@George Maddison @Rob Snell when booking the equipment, please remember to select Royce Equipment Access / Research Scheme

Any problem, please do not hesitate to get in touch

Regards,
Corinne

Subject: Outcome of your Knowledge Exchange Application: KEI2024-01-01 EPSRC IAA D2U LEUNG

Dear Alex

I hope you're keeping well.

Thank you for your recent application for Innovation funding. This particular funding round was very competitive as we received a record number of applications (over 100).

Your project, 'Enhanced feedstock For additive manufacturing copper components (EFFICIENT)' was assessed by three independent reviewers with input from UCLB and funding recommendations were considered by the Funding Committee.
I am pleased to inform you that the reviewers were supportive of your project and we have made a recommendation for funding to the Executive Director, UCL Innovation & Enterprise.

In order to progress with your application, please see below:

Project dates

Your proposed project dates are 21/5/24 to 31/3/2025 please confirm these are correct or provide us with alternative dates within five working days of this notification

Costs cannot be incurred outside the dates set in the award letter

If your project dates need amending by six months or more and / or differ from the resources which were originally proposed, update your Worktribe budget accordingly and resend

Contact your local Finance team for questions on preparing your Worktribe budget

Partner commitment to collaboration agreement

The letters of support from the partner organisations needs to include a statement confirming that they will liaise with the PI to put a collaboration agreement in place. Please provide either revised letters of support or an email confirmation from the partners, that includes this statement. Please see our guidance below.

2. What documents you need to provide

As part of your application, you'll need to provide:

- A **standalone** Worktribe costing (see section A.7)
- Letters of support from any partner organisations, including:
  - A statement of commitment to the project, including details
    will contribute. This should align with the application form b
    not be used in place of a detailed description in the applica
  - The nature and value of any cash and/or in-kind contributio
    should include a sufficient breakdown for the reviewers to b

Funding requested

A small difference is noted between the application form 'UCL resources requested' and the Worktribe costing. Please note for information; the Worktribe costing is the used for the award value and project set up, and therefore the award will be for £99,994.42.

Departmental approval

We are awaiting project approval from your Head of Department, Richard Bucknall

Please remind them to approve (using the UCL University Login option and their usual login credentials) via https://innovation.engage.ucl.ac.uk/account/login/login?returnUrl=/innovation-funding/approvals/

Following confirmation of the above and approval from the Executive Director, UCL Innovation & Enterprise, we will issue official confirmation of your award with the relevant terms and conditions. At that stage, we will ask Research and Innovation Services (RIS) colleagues to set up a new project code for you. They will share these details once it is complete.

The final decision rests with the Executive Director, UCL Innovation & Enterprise, and funding is not guaranteed until you receive a signed award letter.

Please do get in contact if you have any questions.

On behalf of the Knowledge Exchange team

Kind regards

Jane Roberts
Knowledge Exchange Funding Assistant
