Dr Shishira Bhagavath

Department of Mechanical Engineering

Dear Dr Bhagavath

Project: Performance and Resource Efficient Manufacturing via Intelligent Ultra functional Materials using Directed Energy Deposition (PREMIUM DED)

Start Date: 03 August 2026

End Date: 02 January 2027

Award Amount: £29,951.53

Project Reference No: KEI2026-01-17 HEIF ESC BHAGAVATH

Congratulations on your successful application to the Knowledge Exchange and Innovation Fund. This award is funded by Research England's Higher Education Innovation Fund (HEIF), which is administered by UCL Innovation & Enterprise. The funding has special reporting requirements to Research England, and therefore there are a number of conditions upon the use of the award:

- By using these funds, you agree to abide by the conditions laid out below and in the attached general Terms and Conditions.
- A new MyFinance project in UCL Innovation & Enterprise has been set up for this project:

Project No.	PROJECT NAME	TASK NUMBER	AWARD No.
597995	KEI2026-01-17 BHAGAVATH	100	156780

- You are responsible for ensuring that appropriate collaboration agreement(s) are in place.
- You, and nominated members of your Department's finance team, will be given access to this project to create purchase requisitions etc.
- As the project's Principal Investigator (PI), you are responsible for monitoring the expenditure of the project.
- The award should only be used to cover the costs of activities associated with the approved KE&I Fund project. This funding must not be used to cover estates and indirect costs.

Docusign Envelope ID: 7FB4B1C9-8966-8FBD-8144-A8D584A30FE1

- Financial approval of the expenditure associated with the project will be conducted by the UCL Innovation & Enterprise Finance team.
- Overspends, transfers of funding without justification of costs incurred, or other spending outside the grant's purpose will not be permitted. Overspends must be cleared from you/your department's resources and the account closed.
- Eligible project costs that were initially charged elsewhere may be recharged to the account by IDT/IDJ.
- Always quote a purchase order (PO), invoice or expense claim number to ensure an adequate audit trail.
- Project spend must commence within 60 days of the proposed start date; failure to commence the project within this timescale may result in the funding being withdrawn.
- Unspent funds will be recovered to be allocated to other projects.
- We will be required to present a detailed narrative summary of outcomes from this award, so please keep a clear record of publications, and other outcomes and impact, and include them in your final report.
- Your engagement may be required in publicity materials, including case studies and interviews.

As Principal Investigator you are responsible for ensuring any person engaged, employed, or who may volunteer to work in this project (including students, postdoctoral research assistants, sponsored researchers, etc.) complies fully with the UK legislation on right to work throughout any time they are participating on the project and may have number of weekly hours restriction as part of their student status.

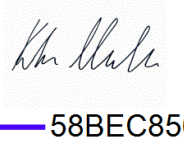

For information on working while studying https://www.ucl.ac.uk/students/immigration-and-visas/working-uk/working-uk-during-your-studies and information on immigration from HR: https://www.ucl.ac.uk/human-resources/working-ucl/hr-services/immigration.

Please contact your local HR team or HR Business Partner for assistance.

UCL Innovation & Enterprise staff will continue to engage with you throughout the project; please liaise with them as and when requested, which will include interim and final reports, monitoring spending progress and an end-of-award interview.

Yours sincerely,

Signed by:

58BEC85636CD4D7...
